MAKING PASSION HEARD

Making Passion Heard.

In 2017, the former AKG manager Martin Seidl founded the Viennese start-up, which is currently active in more than 60 countries around the world. Stars like Divinity Roxx (Beyoncé, Jay-Z, Erykah Badu), Kat Dyson (Prince, New Power Generation), Martin "Ace" Kent (Skunk Anansie), are fans of Austrian Audio products, as well as numerous producers and sound engineers: Adrian Hall (The Black Eyed Peas, Robbie Williams, and others), Jim Ebdon (Sam Smith, Maroon 5) and Obie O'Brien (Bon Jovi, Barbara Streisand, Alice Cooper).

40 pro audio experts with more than 350 years of combined experience (the majority are former AKG employees) are behind the brand, and make sure Austrian Audio stands for innovative quality products with appealing designs, offering an unadulterated and excellent sound experience for musicians, audio professionals and sound aficionados.

Austrian Audio continues the longstanding Austrian tradition of designing and manufacturing high-quality and durable audio equipment.

MAKING PASSION HEARD

PB17 – Professional Business & Office Headset

High-quality pro sound for office and leisure.

Professional sound quality is an asset in the office and business environment. The sonic detail and fatigue-free listening of the PB17 closed-back headphone assists work-focused tasks. Austrian Audio's High Excursion (Hi-X) technology offers exceptional speech intelligibility for calls and crystal-clear sound, making the PB17 the ideal headset for online meeting software such as Microsoft Teams, Zoom, Skype and Google Meet. The PB17 shares the same technology as the highly-regarded Hi-X65, Hi-X55 and Hi-X50 pro audio headphones for exceptional high-definition sound. The PB17 is a great all-rounder: a professional office and business tool equally-suited for general media, music and post-work relaxation.

The closed design of the PB17 prevents sounds from entering or escaping; you can make calls undisturbed by your surroundings and concentrate fully on your conversation. Importantly, the PB17 is equipped with a high-quality boom microphone so that your counterpart understands you just as clearly as you do. The mic can be muted by simply flipping it up. The PB17 can be folded up in just a few simple steps, safely stowed away in the supplied carrying bag for easy transport.

MAKING PASSION HEARD

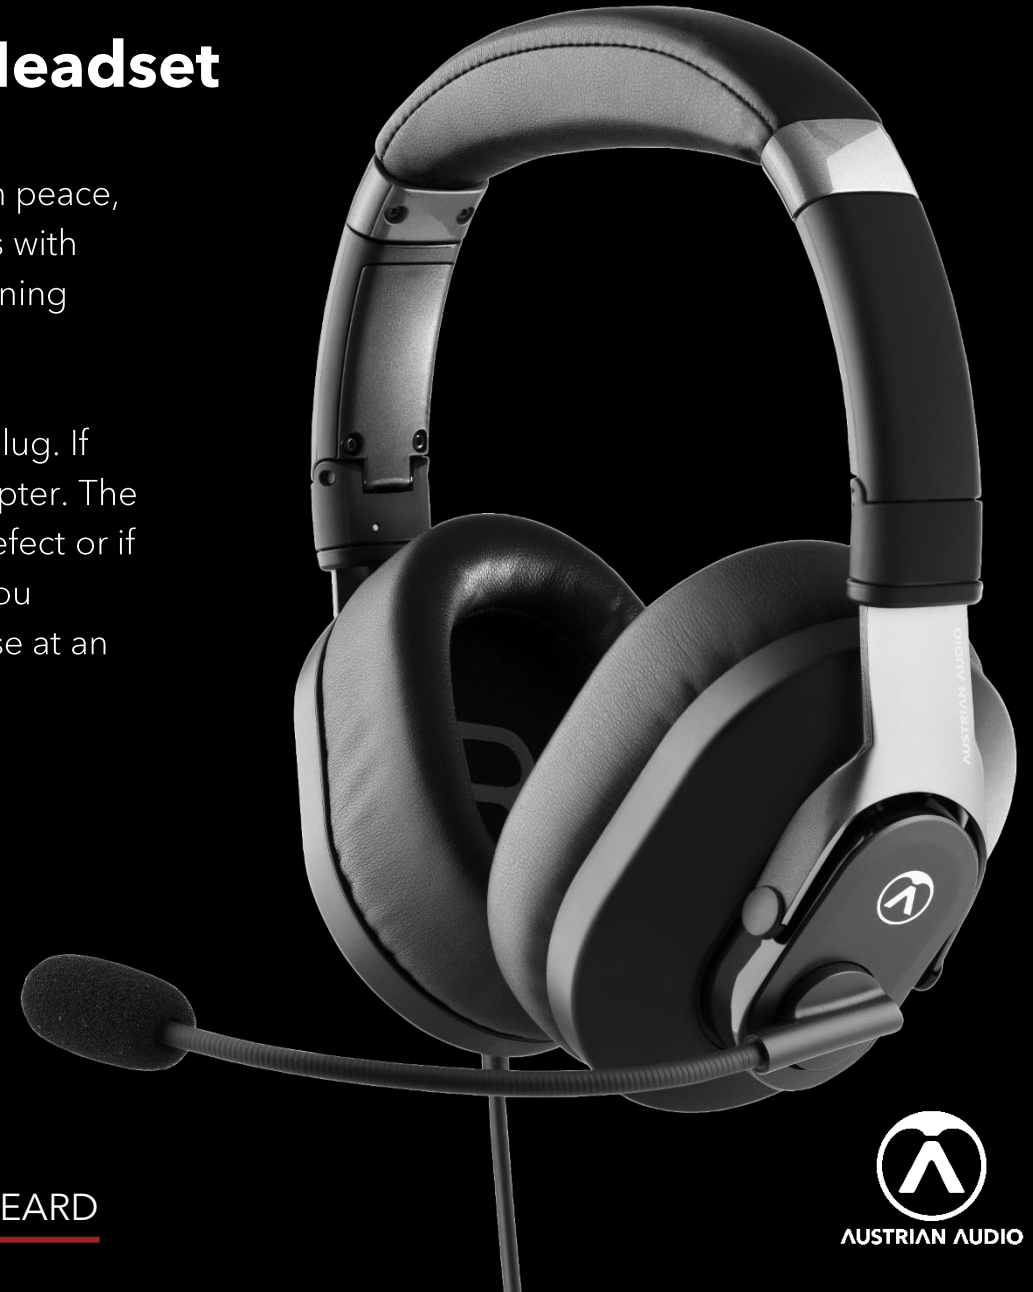

PB17 – Professional Business & Office Headset

After work the PB17 is the ideal headphone to take a break and enjoy music in peace, watch a film or series or relax with a podcast. The powerful 44 mm Hi-X drivers with their dynamic and differentiated sound are just as perfect for high-quality listening enjoyment as they are for everyday office use. A real sound all-rounder.

The PB17 connects with the 1.4 m long connection cable with a 3.5 mm jack plug. If your device does not have a suitable socket, simply use the included USB adapter. The cable is removable and can be swapped quickly and easily in the event of a defect or if you need a longer cable for your devices. The business headset PB17 offers you excellent workmanship and outstanding sound quality for office and leisure use at an unbeatable price-performance ratio.

Designed and developed in Austria.

MAKING PASSION HEARD

Hi-X Driver Technology

When it comes to great sound, we don't compromise. The PB17 Professional Business & Office Headset uses the award-winning drivers of the Hi-X series. The development of Hi-X (High Excursion) technology is the result of decades of experience and state-of-the-art engineering. By reducing all moving mass, Hi-X drivers offer impressive dynamic characteristics and an extremely fast response.

The 44 mm Hi-X driver, with its vivid transients, reveals every sonic shade. Distortion-free reproduction down to the lowest frequencies allows for a linear and impressive natural reproduction of the low bass that's accurate, not exaggerated.

From 12 Hz to 24 kHz the full audible sonic spectrum is accurately reproduced with zero-latency. As What Hi-Fi noted in their five-star review of the Austrian Audio Hi-X15 headphones (on which the PB17 is based): there is a "clear, open presentation" and "this transparency gives them a huge advantage over rivals."

Thanks to their 25-ohm impedance, the PB17 Professional Business & Office Headset always delivers the greatest possible performance, whether you're listening through laptop, desktop or gaming console.

You'll always have the crystal clear and precise sound for outstanding speech intelligibility .

MAKING PASSION HEARD

Key Features

- Our proprietary High Excursion Technology, for high resolution sound
- Soft memory foam earpads to keep you comfortable during the longest calls
- High-end omnidirectional microphone with “Tilt-To-Mute”-functionality
- Metal hinge for maximum durability
- Foldable construction for easy storage, uncommon in this price range
- Detachable 1.4 m cable included (Optional replacement different length cables available)
- TeamSpeak™ certified
- Contents of package:
 - 1x PB17 Headset
 - 1x HSC1M4 1.4 m Headset Cable (Removeable/Replaceable)
 - 1x HSU7 USB Adapter
 - 1x HXB Bag
